

Transnetyx®

YX Automated Genotyping

Join us on Thursday the 26th of October for a talk about how Transnetyx' Automated Genotyping service can help researchers get precise and timely genotyping data while maximizing efficiency and reducing cage cost.

During this informative seminar we will discuss how biological variability can significantly impact your research, and our team will provide guidance on safeguarding your valuable colonies and vital research.

Transnetyx Automated Genotyping, Genetic Monitoring, and Microbiome helps ensure the efficiency, reproducibility and rigor of you research.

We value our partnership with University of Copenhagen and look forward to you joining us for this informative seminar.

Experience speed, ease, and accuracy with our FREE TRIAL.

We'll genotype 25 samples for you absolutely free.
