

# Prices - example

**At this page, you can find details on the price setting of services provided by AEM. In the box to the right, you can download our current price list.**

If you need help, the Department of Experimental Medicine is always happy to assist on finding a specific price for your needs and requirements. Please contact [emed-adm@sund.ku.dk](mailto:emed-adm@sund.ku.dk) if you have any questions regarding AEM's price list. If you need assistance with a costing, please contact [emed-vet@sund.ku.dk](mailto:emed-vet@sund.ku.dk).

Please click on a service to read more about the price setting hereof.

## Housing and accommodation

All animals housed at the Department are charged at a fixed weekly rate. Included in this accommodation of price is general care (cleaning of cages, feeding and watering), and in some cases certain additional services.

### Breeding cages in SPF units (mice)

The following basic technical support is included in the service charge:

- Setup of breeding pairs, weaning of young animals, sorting of animals
- Tail clipping, blood samples, ear-marking related to breeding programmes
- Transfer of animals from SPF to AEM's experimental units
- Report for the researcher according to AEM's standard template (if an individually adjusted breeding report is requested, this will be charged according to the price list for standard services)

Other technical services provided in SPF units are invoiced as standard services or technical hours according to the price list.

### Breeding cages outside SPF

Technical breeding work is not included in the accommodation price but is charged according to the price list for standard services or as technical hours.

### Cages at experimental units

The housing price is the same for all identical cages at AEM's experimental units except unit 16-2.

- Please notice that a distinction is made between experimental cages and breeding cages.
- Cages with equipment are charged at individually negotiated prices

### Accommodation at unit 16-2

The price for accommodation at 16-2 is higher than at the other experimental units because this unit's health status requires special, time-consuming procedures by the staff when handling animals. Please notice that GMO animals, etc. will be charged an additional fee.

### Large animals

Housing of large animals takes place at Panum and at Frederiksberg. The pricing of large animals can be found in the price list under 'Housing and accommodation'.

## Technical services

Standard technical services can be found in the price list. Services will be settled as price per animal or per cage. [Read more about what kind of technical assistance, we offer.](#)

### Special services

Special services includes services which does not appear on the list of standard services. The pricing are settled as technical hours in accordance to the price list.

### Technical work outside opening hours

Technical work performed during weekends, on public holidays, as well as outside the department's normal opening hours (08:00-15:00), will be invoiced according to current surcharges.

### Technical assistance - Surcharges for inconvenience

Please note that there is also surcharges for inconvenience (for example GMO2). The surcharges for time and inconvenience can be found in the price list.

### Surgery services

Please notice that all prices include use of operating table until 14:00. If an operation is not finished by 14:00 every subsequent commenced quarter will be invoice according to AEM's current rates for technical hours.

Operations after 14:00 can only be done in accordance with the staff in the respective unit. Use of materials and medicine in addition to the standard of the individual price packages will be invoiced separately

### Types of services

Service	Description	Comments	Internal price per operating table	External price per operating table
